## Ripstop Kite Fabric

### The Fabric

We keep in stock a variety of nylon and polyester ripstop in both 1<sup>st</sup> and 2<sup>nd</sup> quality, from which we manufacture our own kites. As we purchase from various suppliers, the fabric can differ in appearance, weight, thickness and stretch, so please consider this and select fabric of the same weight and type if you intend to combine it in one project.

### Quality

Very often the difference between the quality of 1<sup>st</sup> and 2<sup>nd</sup> fabric is imperceptible. The nature of 2<sup>nd</sup> quality could mean that the weight of the fabric may vary a little, depending upon the coating, or there may be a very slight variation in the colour, weave or crispness. Different rolls of the same colour can also vary slightly in colour depth/shade. Any faults are usually minimal e.g. off shade, dye ends or coating faults. Sometimes the fault may be that the weft yarns are straight across most of the roll width, but skewed (twisted) very slightly at the outer edges of the roll.

### Fabric Samples

If you would like to see colour samples of our extensive range of ripstop kite fabric, please ask and we will send some swatches and details to you. Please telephone during office hours to confirm the price and availability of the items you are interested in.

### Placing Orders

Please place orders by telephone so that we can discuss availability of material and post & packing charges. As our stock changes frequently, it would be helpful if you could give us alternative colour choices when ordering. We will always try our best to match your choice as closely as possible in terms of shade, weave and coating (weight). Please indicate when ordering if this is not acceptable, and if you would be prepared to accept the alternative width (i.e. narrow instead of wide). Please indicate the minimum length you require in one piece when ordering. It would be particularly helpful if you could give us a daytime telephone number in case we need to contact you when we are preparing your order. Payment may be made by debit or credit card, or a cheque payable to 'Highwaymen Ltd'.

### Volume Discount

Our fabric is carefully selected to give you the very best in quality, consistency and value. Our prices are very competitive, but we can offer you a 10% discount for orders of 20 metres and above, and 15% discount for orders above 100 metres. If you require larger quantities of fabric, please telephone for a quote.
